Experience

Till (acquired by Best Egg)
Software Engineer II

Washington, D.C. / Remote
04.2021 – Present

Worked on a full stack team primarily focused on user facing products. I was specifically responsible for front-end architecture and testing, using Jest, Cypress and story based unit testing tools.

Successfully migrated a legacy React code-base to a simplified Vue.js stack, resulting in improved performance and code maintainability.

Optimized the application sign-up process to streamline user onboarding.

Squad 🤔

Co-founder / Developer

Washington, D.C.
05.2020 – Present

Squad 🤔 is a full-featured SaaS product that makes it easy for small teams to stay on the same page, week-to-week. This is my first side business, designed to scale for thousands of users and integrated with Stripe for payment processing.

Through this experience, I created the opportunity to build a product from the ground up that includes, user onboarding flows, modern state management, real-time updates via web sockets, payment and checkout, user permissions, and an intuitive user interface.

EVERFI

Director of Web Operations

Washington, D.C.
09.2019 – 03.2020

Led a team of internal Wordpress developers and a web-agency relationship to build and maintain EVERFI's marketing site as a scalable lead-gen machine.

Launched a blog performance and content optimization project that resulted in organic search traffic growth.

Social Tables (acquired by CVENT)

Marketing Web Developer

Washington, D.C.
01.2016 – 03.2019

Managed a successful transition from a rigid WordPress implementation to a flexible instance using Beaver Builder. This included a sub-domain migration, re-designing pages, and ensuring minimal negative impact on search traffic and conversion rates.

Built custom pages using HTML, CSS, Javascript and various Wordpress plugins.

Reduced page load time by 25%. Grew overall website traffic by 50% YoY, and search traffic by 120% YoY. Averaged 400,000 unique sessions per month in 2019.

Curalate,

Marketing Operations Manager

Philadelphia, PA
10.2011 – 04.2015

Administered Hubspot and Salesforce for a 20 person sales staff. Managed email marketing, blog content, social content and, data collection for sales enablement.

Proud to be part of the team from day one, working among the founding group.
